OUR COMPANY INTRODUCTION

Leading the market

Target Modern Contracting (TMC) is an industry leader in civil engineering and rehabilitation works. We have been in construction for over 15 years and have completed projects that encompass the full spectrum of civil engineering services. These include road construction, infrastructure development, power distribution networks, overhead transmission lines, road rehabilitation, bulk earthworks, and surfacing.

As a leading provider of civil engineering services, we strive to deliver high-quality solutions that not only meet the needs of our clients and the community, but also enhance the overall quality of life.

At TMC, we understand that the challenges faced by our society require innovative and sustainable solutions. That's why we are passionate about leveraging our expertise to create a more sustainable and resilient future. Through collaboration with our clients and partners, we aim to transform the landscape of civil engineering by implementing cutting-edge technology and practices.

Our core values of integrity, teamwork, and professionalism guide everything we do. We believe in establishing strong relationships with our clients, built on trust and transparency. Our team of skilled professionals is dedicated to delivering excellence in every project, ensuring that each solution we provide is tailored to the specific needs of our clients and the community.

With TMC as your partner, you can be confident that your project will be handled with the utmost care and expertise. We are committed to surpassing expectations and delivering results that exceed industry standards. Together, let's create a better future through the power of civil engineering.

OUR VISION

Leading the industry

TMC envisions a future where our civil engineering expertise is used to build a more sustainable and resilient world. We believe that by providing high-quality, innovative, and sustainable solutions, we can make a positive impact on the environment and the communities we serve.

Specifically, we envision a world where all people have access to reliable and affordable energy, our infrastructure is resilient to natural disasters and climate change, our cities are more livable and sustainable, and we leave a better planet for future generations.

OUR VALUES

Highest quality available

Target Modern Contracting (TMC) is committed to providing quality civil engineering services that meet the needs of our clients and the community. We are dedicated to providing innovative and sustainable solutions that improve the quality of life for all.

We believe that our civil engineering expertise can be used to make a positive impact on the world. We are committed to working with our clients and partners to create a more sustainable and resilient future.

OUR COMPANY SERVICES

Highest quality at the core

CIVIL CONSTRUCTION

TMC specializes in providing comprehensive civil construction services for a wide range of projects. With expertise in small and medium-sized buildings, substation buildings, utilities, concrete batching plants, and crusher plants, they cater to various construction needs. With a focus on quality and precision, the company delivers high-quality construction solutions for all civil engineering requirements.

INDUSTRIAL / COMMERCIAL

- Small and medium-sized buildings
- Substation building complete with all utilities
- Pre-engineered building - foundation, grade beam, grade slab, installation of structure, block masonry, etc
- Concrete batching and hng plants - foundations, warehouses, workshops, etc
- Crusher plants - retaining wall, ramp, foundation for equipment
- Block and tile factory - foundation, trenches, sheds, etc
- Woodwork factory
- Weigh bridge foundation and access ramps
- Municipal infrastructure - water main, sanitary and storm sewer system
- All types of foundations

FINISHING WORK

- Aluminum Cladding
- Marble Finishes
- Partitions
- False Ceiling
- MDF and other Decors
- Hardwood Floor
- Painting
- Chain-link Fence
- Boundary Wall
- Electrical and Lighting Fixtures etc.

ELECTROMECHANICAL

TMC is a renowned company in the field of electromechanical works. They have experience in handling various types of projects, from industrial to substation. They provide quality and precision in their work, using the latest technology and equipment. They are committed to meeting the engineering needs of their clients with their electromechanical solutions.

INDUSTRIAL / SUBSTATIONS

- Pre-Engineering building utilities such as:
 - Electrical System HVAC / Chiller System
 - Fire Protection / Fire Alarm System
 - Sprinkler System
- Foundations
- Cable Duct Banks
- Installation of Cable Trays, Cable Ladders, and Panels
- Structural Fabrication
- Outdoor substation yard
- MCCS
- Switchboard and Panels
- All types of cable laying and termination
- Underground Cable Laying

WATER & SEWER LINES

- Excavation
- Ground Bedding Under Line
- Irrigation Lines
- Shoring & Sidewall Protection
- Wastewater Line Management
- Soil Treatment & Backfilling

DEWATERING

Dewatering is a vital service that TMC construction provides to its clients. Dewatering is the process of removing excess water from the ground or from structures, such as concrete, that are affected by water.

Dewatering can improve the stability and safety of the soil and the structures, as well as enable the reuse of materials and reduce environmental impacts. TMC construction has extensive experience and expertise in applying various dewatering methods.

TRANSMISSION LINES

Our services cover design, material supply, and installation for various power generation projects, including Power Plants, Transmission Lines, Underground Cabling, Distribution Networks, and Rural Electrification. With a commitment to technical excellence, we ensure reliable and efficient energy solutions for Saudi Arabia's growing needs.

- Construction of Transmission Lines up to 380 kV Double-Circuit
- Lattice Steel Tower Erection
- Line Relocations & Reconductoring
- OPGW Installation
- Soil Investigation

TELECOMMUNICATION

TMC, a provider of telecommunication services, offers a range of expertise in the field of telecommunications infrastructure. With a focus on installation services such as OPGW, U/G NMFOC, OPGW TO OPGW, and OPGW to U/G NMFOC, TMC plays a significant role in ensuring the integrity of telecommunication networks.

The company also excels in tasks like joint splicing for FORM, FSTP, OPGW TO OPGW, and OPGW to U/G NMFC, while supplying essential components including OFMR, FSTP, U/G NMFOC, communication manholes, handholes, corrugated pipes for underground NMFC, PVC pipes, warning tape, and protection tiles. TMC is committed to providing reliable services tailored to your telecommunication infrastructure needs.

OUR CLIENTS

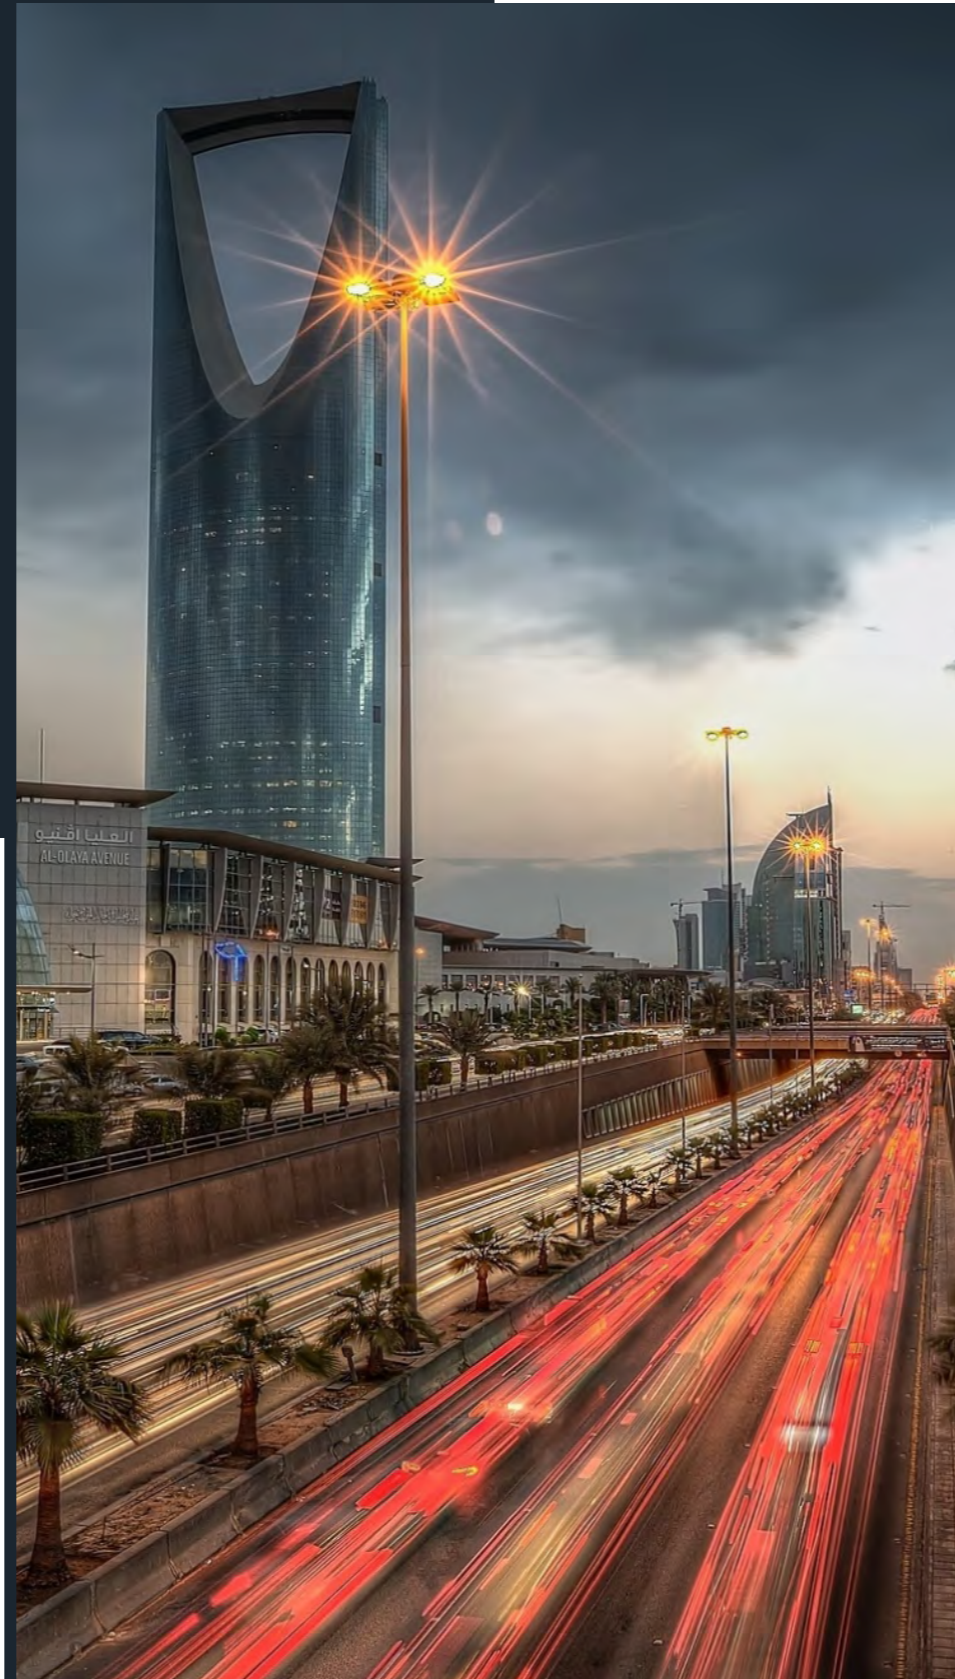

Worked with the best

One of the strengths of our company is the long-term relationships we have built with our clients, some of whom have been with us for over a decade. We are proud to have worked with leading companies in various sectors, such as ABB, NITAJ, Abengoa Inabensa, Saudi Binladin Group and RMD Kwikform. These clients have trusted us with their most challenging and complex projects, and we have delivered high-quality solutions that met their needs and expectations. We value their feedback and loyalty, and we strive to maintain our reputation as a reliable and innovative partner.

OUR COMPANY PROJECTS

Few of our latest construction

We are proud to showcase our diverse and innovative projects that span across various domains and industries. Our projects reflect our commitment to excellence, quality and customer satisfaction. We have a team of experts who work collaboratively to deliver solutions that meet the needs and expectations of our clients.

PROJECTS

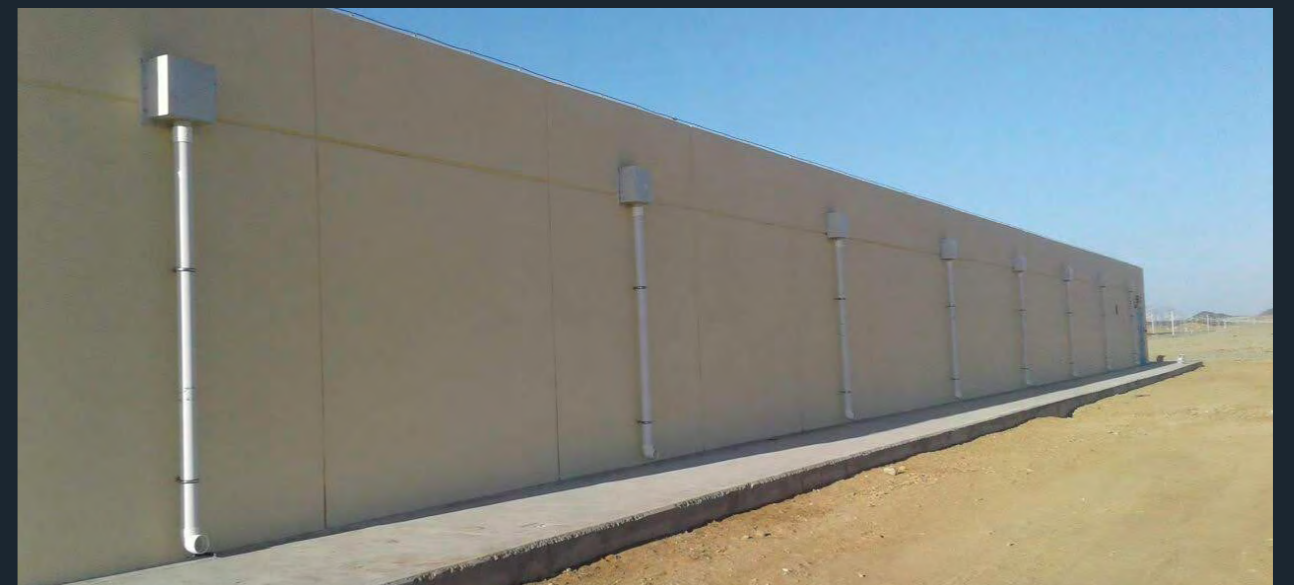

PROJECTS	LOCATION	CLIENT
5GW Saudi Solar PV Independent Power Plant	Riyadh, Saudi Arabia	Lasen & Turbo Saudi Arabia LLC
Construction and Installation Of Towers	Dhuba Green Project	National Contracting Company Limited (NCC)
Construction and Installation Of Towers	Makkah, Saudi Arabia	National Power Construction Corporation (NPCC)
Construction Of 115kV Double Circuit & 380kV OTL	Khurais Project	Giza Systems
Construction of New Sudair PV 380kV	New Sudair Project	Tareg Al Jaafari Contracting
Construction and Installation Of Towers	Jeddah, Saudi Arabia	Alfanar Projects
New Office Facility for Nitaj	North Cornish Jeddah	Nitaj Global Company
Global Civil Work Undertaken for a Woodwork Factory	Bahra Jeddah	Binladen Woodwork Factory Co.
Civil and Mechanical Work for Feeder Station 5	Hermain High Speed Railway	Inabensa Saudi Company Ltd
Maintenance Work for 24 Signal/Technical Buildings	Hermain High Speed Railway	Inabensa Saudi Company
Civil and HVAC - Power Station at Madina Depot	SRO Madina Depot	Al Shoula Consortium
High Voltage Substation Comprising 5 PP Buildings	Hermain High Speed Railway	Inabensa Saudi Company
60-Kilometer Sewer Line	North Cornish Jeddah	Al Harbi Contracting Company
Installation of 13.8 & 33 kV Shunt Capacitor Bank	Various Locations, Saudi Arabia	ABB / SAUDI
Installation of Concrete Batching Plants	Various Locations, Saudi Arabia	Saudi Binladin Group
Civil Work on Multiple Crusher Plants	Various Locations, Saudi Arabia	Saudi Binladin Group
Construction of Warehouse & Utilities	Various Locations, Saudi Arabia	RMD Kwikform Saudi Arabia.

EQUIPMENT DIVISION RENTAL

In addition to our extensive fleet of construction equipment, which includes excavators, wheel loaders, a variety of rollers, and asphalt pavers, we are pleased to offer all of these machines for rent. Whether your project requires the precision and versatility of our excavators, the heavy lifting capabilities of our wheel loaders, the smooth finishing touches provided by our rollers, or the precise asphalt laying of our paver, our equipment is at your disposal. We understand the importance of having the right tools for the job, and our diverse range of EQUIPMENT ensures that we can meet the unique needs of your construction projects. To learn more about our equipment rental options and how we can support your specific requirements, please don't hesitate to contact us. We're here to provide you with the ideal construction solutions for your success.
